

Super Savings Tips

February 1, 2011

Start the year with Savings!

Don't miss this Savings Opportunity!

You may qualify for up to 20% reduction of your Homeowner's Insurance Premium

The hustle and bustle of the Holidays have subsided and many of us are focused on paying off our credit cards. We don't want you to miss out on a savings opportunity that security monitoring provides.

Many insurance companies offer alarm monitoring subscribers a significant reduction on their homeowner's premiums - some up to 20%.

Check with your homeowner's insurance company to see if they offer a discount because you are monitored through SAFE Security. If you *are* eligible for a discount, we'll send you the documentation insurance companies require.

[Email me](#) and type "Insurance Discount" in the subject line. Or, request the [Insurance Certificate](#) online. It's quick, easy and ***FREE!***

Best regards,

[Karen](#)

PS Here's another terrific way to save!

SAFE has a great Friends and Family referral program. You can earn \$50 for each referral that becomes a customer, and they get great discounts on a new wireless security alarm system. [Click here](#) to go directly to the Friends and Family referral page on our website.

What better time to send love and friendship than Valentines Day!

We still offer 10% OFF ON CO & SMOKE DETECTORS

With Winter in full force, think about incorporating Carbon Monoxide detectors into your safety and protection plans. Call SAFE customer Care (800) 669-7779 to find out more. Mention this Tips and Alerts email to receive 10% off a CO detector or a fire/smoke detector!
